WHO WE ARE

Delivery discipline for live programs.

Nour 365 is a professional-services subconsultant that helps owners, prime contractors, and project teams turn fragmented activity into controlled execution. We install practical delivery routines, reliable reporting, disciplined document control, and clear accountability — so leaders can make timely decisions and close projects with confidence.

We work inside live programs: embedded with your team and fluent in the field-to-office reality of construction, utilities, and infrastructure delivery — on-site across New England and remote nationwide.

10–15% Procurement savings delivered on U.S. programs | 20+ Years of operational leadership |
\$50M+ Program-scale delivery experience | 150 People led on complex programs

HOW WE WORK

Embedded. Accountable. Prime-friendly.

- **Execution-first:** practical systems built for live project environments — not shelfware.
- **End-to-end discipline:** continuity from permits and planning through handover.
- **Flexible delivery:** task orders, statements of work, project-based, and on-call support.
- **Clear scopes, documented decisions,** dependable reporting, accountable follow-through.

CORE CAPABILITIES

Six disciplines. One standard: delivery.

Project Delivery Leadership Scope, schedule, cost, change control, risk, and issue management — senior leadership that keeps programs moving.	Project Controls & Reporting Baselines, KPIs, progress measurement, recovery support, dashboards, and executive-ready reporting stakeholders trust.
Stakeholder & Authority Coordination Owners, municipalities, utilities, consultants, vendors, and subcontractors — aligned around decisions and dates.	Document Control & Compliance RFIs, submittals, permits, QA/QC records, decision logs, and audit-ready files — controlled from day one.
Construction Closeout & Turnover As-builts, punch lists, deficiency tracking, handover packages, and readiness reviews that finish projects right.	Field-to-Office Execution Support Meeting cadence, action tracking, escalation paths, status reporting, and relentless follow-through.

Four ways to start. One standard: delivery.

Fractional Delivery Support

Senior delivery leadership, embedded

Senior delivery leadership embedded in your team — scaled to the commitment the program actually needs.

Closeout Recovery

Stalled projects, finished right

Get stalled projects across the finish line — from punch list to final acceptance.

Project Controls Sprint

A 3-week intensive

Turn fragmented project data into a schedule, dashboard, and reporting rhythm stakeholders can trust.

Authority Coordination Sprint

Permits and approvals, unstuck

A focused push to unblock permits, utility coordination, and authority approvals — with a clear tracker owners and primes can see.

REPRESENTATIVE EXPERIENCE

Founder-led. Field-tested.

Nour 365 is founder-led by a PMP-certified operations project manager with delivery experience across U.S. transit and infrastructure programs and major Middle East infrastructure — supporting more than **\$50 million** in multi-sector delivery, leading teams of up to **150**, and delivering **10–15% procurement savings** on U.S. programs.
